FOREWORD

Services, Products and Management Consultants (SPMC-Pakistan) is a leading environmental services consulting firm based in Karachi, Pakistan. We specialize in providing comprehensive engineering management services to a diverse range of clients. With a focus on delivering cost-effective solutions, we assist organizations in improving their environmental performance, ensuring legal compliance, and enhancing resource efficiency.

At SPMC-Pakistan, we pride ourselves on the expertise and qualifications of our project teams. Our team comprises highly qualified civil, chemical, and environmental engineers, lawyers, and scientists with specialized knowledge in areas such as environmental assessment, wastewater engineering, field investigation, HSE supervision, and implementation of Environmental, Social & Gender Safeguard standards. Additionally, we have dedicated teams that enable us to provide comprehensive solutions tailored to our clients' needs.

We offer engineering design consultancy services, ISO management systems such as ISO 14001 (Environmental Management System), ISO 9001 (Quality Management System), ISO 45001 (Occupational Health and Safety), software development, environmental planning and mitigation consultancy, Trainings and more. Through our services, we help our clients achieve environmental compliance, optimize resource utilization (such as water, steam, natural gas, and chemicals), conserve energy, and enhance overall productivity at their organizations.

Our goal at SPMC-Pakistan is to deliver the best and most cost-effective environmental engineering and management solutions to our esteemed clients. We strive to help organizations deliver customer expectations, foster social responsibility, improve business productivity, and generate sustainable revenue streams.

We look forward to serving you and contributing to your business success.

Engr. Tufail Ali Zubedi
Founder – SPMC Consultant
